

Tower STTRFSN

Frost Thermostat

The Tower STTRFSN is a dial-type mechanical frost protection thermostat. With neutral housing to blend in to any style decor

Designed for wall mounting, with 60mm fixing centres for back-box compatibility, and suitable for in-wall or surface-run wiring connection. The thermostat cover incorporates four breakouts for surface-run conduit. The temperature regulation mechanism is the well-proven sealed bellows system. Install in parallel to the room thermostat in a cool area of the property, to protect the property, heating system and boiler against the risk of damage from frost.

- Temperature range - $-5^{\circ} - 15^{\circ}\text{C}$
- Differential - 1°C
- Contact rating - 10 (3) Amperes
- Contact type - Volt-free changeover
- System compatibility - Mains or low-voltage
- Suitable for combi boilers - Yes
